

# OB General Lube

## Non-Spermicidal Lubricant

A ready to use, non-spermicidal, non-irritating, water-soluble lubricant for rectal and obstetrical procedures in large and small animals. It can be used to lubricate gloves, obstetrical instruments, stomach tubes, enema nozzles, catheters and to aid delivery. It can be used as a concentrate or diluted. To use as a delivery aid, mix with water to achieve desired viscosity.
