**TESTIMONIALS**

*“When dogs wear the Trimline Collar to heal after an injury or surgery, they are more comfortable and relaxed, which in turn makes their pet parents happier.”*

**-Dr. Bernadine Cruz, DVM**

*“The Trimline Collar is the collar that I prefer to use because it’s soft and more comfortable. I like the fact that you can invert the Trimline Collar to free up a cat’s whiskers and still prevent them from pawing or licking at their sutures on the face or abdomen areas.”*

**-Dr. Arnold Plotnick, DVM**

*“The Trimline Recovery Collar is soft, lightweight, and inexpensive. They come in 6 sizes, and they are easy to put on and take off. Pets can easily eat, drink, sleep and even play while wearing them. What a great substitute for the hard plastic collar!”*

**-Arden Moore, Pet Behaviorist & Editor of Catnip**
